Lynx Technologies Total Data Storage & Backup Solution

First, We Evaluate 4 Key Elements Of Your File Storage Systems Availability:

1. Performance
2. Application Availability
3. Data/Storage Availability
4. Failure Recovery

Then We Develop Your Custom Total Data Storage Solution To:

- [Improve System Performance](#)
- [Simplify Storage Management](#)
- [Expand Storage Options](#)
- [Streamline Enterprise Backup](#)
- [Expand Backup Solutions](#)
- [Cluster](#)
- [Optimize Data Caching](#)
- [Optimize Data Exchange](#)

SPECTRA LOGIC DATA STORAGE & BACKUP SOLUTIONS

A proven component of the Lynx Total Data Storage Backup & Recovery Solution, Spectra Logic data protection products include ultra-reliable tape and disk libraries, that are easy to install, use, and maintain.

SPECTRA RXT RAID PORTABLE RAID FOR DATA STORAGE & BACKUP

The Spectra Logic family of RXT solutions offers you a range of data storage units, each designed for a specific data protection problem. The RXT for Data Backup module lets you add RAID disk functionality to a standard data storage environment. RXT solutions for other data protection problems include stand-alone, storage blade, and T120/T950/T50 data library-based configurations.

RXT (RAID eXchangeable TeraPak) technology expands on the drive-and-tape model of data storage. The RXT system uses a docking station that matches a tape drive's form factor.

Instead of writing to individual tape cartridges, RXT data protection volumes write to multiple Serial ATA (SATA) disks, sealed in a rugged enclosure. RXT data protection volumes can be stored off-site while providing the speed and reliability of disk. RXT brings you the best of disk storage and the best of tape storage:

Spectra RXT (RAID EXchangeable TeraPak) RAID For Portable Data Storage Backup & Recovery

T950 integration: 20 minutes to configure a partition and load RXT data protection volumes

T120 and T50 integration: 2U, 20 minutes to install & configure

RXT Storage Blade: 2U, 10 minutes to install

RXT Stand-Alone: 5 minutes to install

Spectra RXT RAID
Portable Drive For
Data Backup

TOTAL DATA STORAGE SOLUTION IN YOUR DATA CENTER

Tired of expensive upgrades? Maximize value and minimize obsolescence in Your data center. Independently, NetApp, Syncsort, and Spectra Logic products offer functionality and performance that no other competitor can boast. When combined in the **Lynx Total Data Storage Backup & Recovery Solution**, these products form the backbone of a Fast, Reliable, Scalable, 24x7 data storage & backup operation. This cutting-edge solution will provide ongoing flexibility for Your evolving data storage & backup needs.

Lynx Technologies not only design and provide Your data storage / backup solution; we will work with You to integrate it into Your system. We will also train Your data center personnel and provide ongoing support as required. We are fully committed to provide **Your Total Data Storage Backup & Recovery Solution.**
